DIGITAL GOVERNANCE AWARDS

The Department of Information and Communications Technology, National ICT Confederation of the Philippines, and the Department of Interior and Local Government as the Digital Governance Awards project recognizes another set of local government units with exemplary information and communications technology (ICT) solutions for their local constituents, business stakeholders, and fellow government offices.

DIGITAL GOVERNANCE AWARDS

OBJECTIVES

- To highlight and encourage the effective and efficient utilization of ICT in the delivery of services and performance of the duties and responsibilities by local government units (LGUs).
- To share and replicate innovative practices, and commend, collate and document LGUs in integrating ICT in their processes to serve as example and benchmarks to other LGUs.
- To improve the business development, social services and the general ecosystem of the LGUs and motivate the private and business sector to actively participate and/or invest in the growth of the LGUs.
- To promote citizen's responsibility and participation as well as accountability, efficiency and transparency in governance responsibility and encourage innovation.

MAIN CATEGORIES

1. **Customer Empowerment (G2C) Award**

   This Category recognizes the efforts of an LGU in using ICT in its dealings with the public. This includes ICT solutions towards the improved, timely, and relevant delivery of public services directly to the constituents.

2. **Business Empowerment (G2B) Award**

   This Category recognizes the efforts of an LGU in integrating ICT solutions, and the commitment of its administration, in the LGU's responsiveness to the needs of business enterprises, thereby creating business opportunities.

3. **Interoperability (G2G) Award**

   This Category recognizes the efforts of an LGU in connecting data and systems with other government offices, both national and local, for the convenience of their constituents and to improve its public service delivery.

4. **Government Internal Operations (G2I) Award**

   This Category recognizes the efforts of an LGU in developing or improving its internal systems and adhering to various recognized standards, to be able to provide better service to its internal customers.

As part of NICP and DICT's commitment to bring ICT industry development and opportunities to the countryside, the DICT-ICT Industry Development Bureau (IIDB) formally launch another batch of Digital Cities Roadmaps, June 27, 2023

TALENT DEVELOPMENT AGENDA

Talent Development Priorities

The Technical Education and Skills Development Authority or TESDA is aggressively supporting the enterprise-based training approach to generate employment in the ICT industry in the countryside. It has signed a pioneering agreement with the Metro Davao ICT Industry Board in order to grow the 70,000+ workforce now employed in the various sub-sectors of the ICT industry. This segment presents the talent development agenda of the Davao Region, with expressions of support from the National ICT Confederation of the Philippines and TESDA, with the hope that this partnership model can be replicated in the other ICT Councils nationwide.

Kacific and NICP Collaborate to Transform Rural Internet Access in the Philippines

By **Panay News** - Saturday, August 12, 2023

From L-R: Roehl Gurango, Secretary of the National ICT Confederation of the Philippines, Dr. Mary Joy Abueg, President of the National ICT Confederation of the Philippines, Ferdinand Simbulan, Sales Director of Kacific Broadband Satellites, Inc., and Gino Belgira, National Partnerships Manager of Kacific Broadband Satellites, Inc. The collaboration between Kacific and NICP seeks to empower rural communities by providing them with satellite broadband internet infrastructure and value-added services.

Both Kacific and NICP are enthusiastic about the partnership's potential impact in enabling communities in remote areas to participate fully in the digital world.

Through this collaboration, Kacific will endorse local internet service providers and distributors, facilitating their access to Kacific satellite service to fulfill the internet requirements of government, enterprise, and community organizations in geographically isolated and disadvantaged areas (GIDA). Internet services will be provided through commercial agreements with local ISP partners. Additionally, Kacific will work with its local partners and distributors to deliver training and assistance for internet requirements in identified GIDA sites, including community Wi-Fi operations, voucher billing systems, troubleshooting, sales, branding, and marketing support.

REQUIRING CRITICAL INFORMATION INFRASTRUCTURE INSTITUTIONS TO ADOPT AND IMPLEMENT ADEQUATE MEASURES TO PROTECT THEIR INFORMATION AND COMMUNICATIONS TECHNOLOGY (ICT) SYSTEMS AND INFRASTRUCTURE

Executive Order on the Protection of Critical Information Infrastructure

Policy Brief

JOINT STATEMENT OF SUPPORT FOR THE PROPOSED "OPEN ACCESS IN INTERNET SERVICES ACT"

the organizations, express our full support for the immediate enactment of the proposed Open Access in Internet Services Act.

House Bill No. 6 or the Open Access in Data Transmission Act

The bill has two key reforms:

1) lower barriers and cost to market entry of Internet network operators by simplifying the
registration and qualification process for providers; and

2) make broadband network deployment faster and more efficient by promoting
infrastructure sharing and streamlining the approval process for permits to install
broadband infrastructure.

On December 12, 2022, the House of Representatives approved, on Third Reading, House Bill No. 6 or the Open Access in Data Transmission Act.[1]

Starting May 2023, the Senate Committee on Science and Technology has initiated public hearings on key digital connectivity and cybersecurity bills, including Open Access:

Senate Bill	Author
SB No. 1383	Senate President Juan Miguel Zubiri
SB No. 1611	Sen. Joel Villanueva
SB No. 864	Sen. Grace Poe
SB No. 183	Sen. Imee Marcos
SB No. 1845	Sen. Raffy Tulfo

An Open Access law is critical to supporting the Marcos administration's goal of promoting universal, seamless, and secure connectivity for Filipinos. We call on the 19th Congress to approve Open Access to make the Philippines a truly digital nation.
